MP 167
two way valve

A. SOLENOID VALVES

- Indirectly driven 2/2 valves,
- high reliability, long life,
- medium: air/water,
- working pressure 0.5–16 Bar,
- maximum pressure: 16 Bar (1.6 MPa),
- ambient temperature: -20 ÷ +55 °C,
- fluid temperature: -25 ÷ +90 °C,
- medium viscosity < 20 cSt,
- consumption 9 Watt,
- el. connection: ISO4400, IP65,
- voltage tolerance: ± 10 %.
